The best wedding is a blend of your unique love story, rooted in refined, classic elegance but with the stylish edge of your personal tastes.

Most importantly our services are customised to your busy lifestyle, while your budget is being managed with meticulous approach.

As our couples want unique experiences, we develop a fee based on each wedding's specific details.

Contacting Roberta was the best choice we made for our wedding. She has been available and reassuring and she immediately understood the type of design we wanted our wedding to have.

The vendors that Roberta introduced us were so professional and gave us a high level service.... the result is that the party was incredibly perfect!

None of the weddings we design are identical. We take a lot of pride in them because they have a major range in colours and aesthetics.

What remains the same is the level of elegance, beauty, and luxe details involved, and each couple's personality is at the heart of our process.

We take our time getting to know our couples, translate their vision, and understand and enhance what is most important to them.

The entire planning is designed around your individual story, your busy life and your interests and your tastes, removing unnecessary stress and decision overload from you.

So you can take your time back, knowing that your wedding will not only be perfectly executed, but also that no detail will be forgotten or overlooked.
